# Learn Fire Safety Basics

What will you do if there's a fire in your home?

## Have an escape plan.

Talk with your family about an escape plan. You should have two ways out — a Plan A and a Plan B — in case one way is blocked by fire.

## Have a family meeting place.

Decide with your family where to meet outside, away from the fire.

## Crawl.

Remember to stay close to the floor when moving. The smoke of a fire will rise to the ceiling. It will be easier to breathe if you are close to the floor.

## Feel.

Always feel doors before you open them. A hot door means there may be fire on the other side. Try another way out.

## Know how to open windows and doors.

Have a parent or guardian show you how to unlock windows and doors in your home.

## IMPORTANT! Get out first.

Stay calm and move quickly. NEVER look for your favorite things. You need to get out fast! Call 9-1-1 AFTER you get outside.

CHECK THE  
DOOR BEFORE YOU  
EXIT A ROOM DURING  
A FIRE!

## STAY outside.

Stay outside — no matter what. NEVER go back into a burning building!

## Practice what to do.

As a family, have a fire drill. Practice your escape Plans A and B and know where to meet outside.
